Art Unit: 2167

### **DETAILED ACTION**

1. The amendment of 9/7/2001 has been received and entered. Claims 1-14 are pending.
2. For the reasons stated in the response to arguments section, below, the rejection which follows is identical to the rejection in the first action on the merits.

#### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Goodwin, III, U.S. patent 5,663,963, issued 9/2/1997. This is the parent of 5,878,064, cited by applicant in the IDS of 11/30/1999.

See Fig. 1. The EPL inherently has a memory for storing the price and a display for displaying that price information; the processor is shown at 12 and 15a.

With respect to Claim 2, the alert mechanisms are shown at 22, 23 and 25 in Fig. 1.

With respect to Claim 3, the battery level test is indicated at Fig. 4.

With respect to Claim 5, the status request and inherent reply are shown on Col. 4 line 10-15.

Art Unit: 2167

With respect to Claim 14 as best understood, the EPL may cease to transmit on failure as indicated on Col. 3 line 40+.

*Response to Arguments*

Applicant states at page 5 of the response that Goodwin '963 does not teach a processor within the price label which performs diagnostic tests on the components of the label. As understood by the examiner, Fig. 4 of '963 shows at least four tests requiring a processor in the price label: the battery, checksum, LCD glass and circuitry test. While some interpretation of the data is required, it is apparently also required by the present application as at Claim 13.

Applicant's remaining distinctions on page 5 are not reflected in the claims.

*Conclusion*

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2167

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Morse whose telephone number is (703) 308-4789.
